Monitoring Volcanoes in the North Pacific

"Observations from Space"

Springer, K.G. Dean & J. Dehn, Berlin & al. 2015 (Springer-Praxis books in geophysical sciences)

xxxiii, 363 pp., col., num. illus. (incl maps, diagrams & graphs), tables, contents: 1. Setting, history, and impact of volcanic eruptions in the North Pacific region, 2. Satellite systems and interactions, 3. Thermal anomalies at volcanoes, 4. Applications of high-resolution satellite remote sensing for northern Pacific volcanic arcs, 5. Volcanic clouds, 6. Remote sensing of gas emissions from volcanoes, 7. Volcanic ash transport and dispersion models, 8. Interferometric synthetic aperture radar (InSAR): A long-term monitoring tool, 9. An overview of satellite monitoring of volcanoes, 10. Views of the Kamchatka–Kuriles–Aleutian volcanoes from manned spacecraft, 11. The effects of volcanic eruptions observed in satellite images: Examples from outside the North Pacific region, References, Index, hardcover
139,09 EUR
